

Animals Venn Diagram - Fourth Grade

OBJECTIVE

To learn about how different and how alike some animals are.

ACTIVITY OVERVIEW

Students will learn that although some animals are very alike, they still have differences that require different approaches when caring for and understanding them.

MATERIALS

- Venn diagram example and worksheet included with this lesson
- Books, videos, or websites about different kinds of animals and pets

DISCUSSION

- Talk about how some animals are alike and then about their differences.
- Hand out example and worksheet and explain a Venn diagram.

LESSON

- Ask students to pick and research two animals using the resources provided or by visiting the library.
- Students should complete the Venn diagram worksheet.

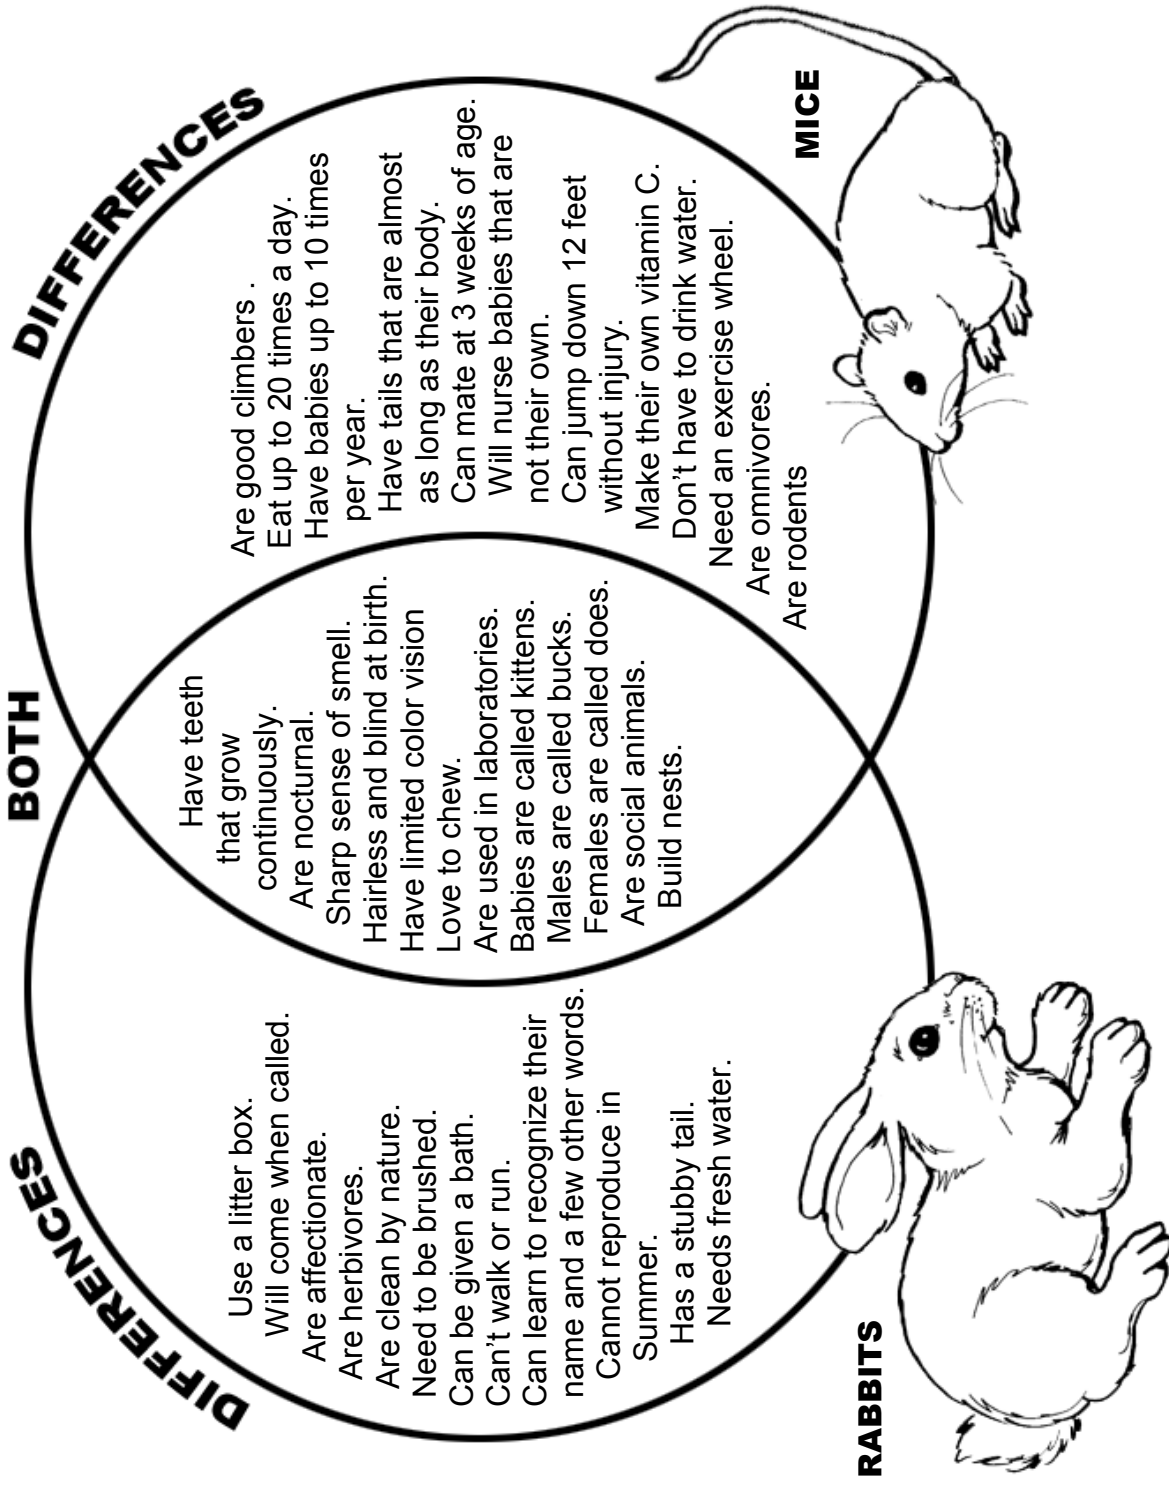

POST DISCUSSION

- Ask the students to share their Venn diagram with the class.
- Allow for questions

ANIMALS VENN DIAGRAM

Example Venn diagram.

THESIS: Rabbits and mice are very similar in many ways, but they are also very different.

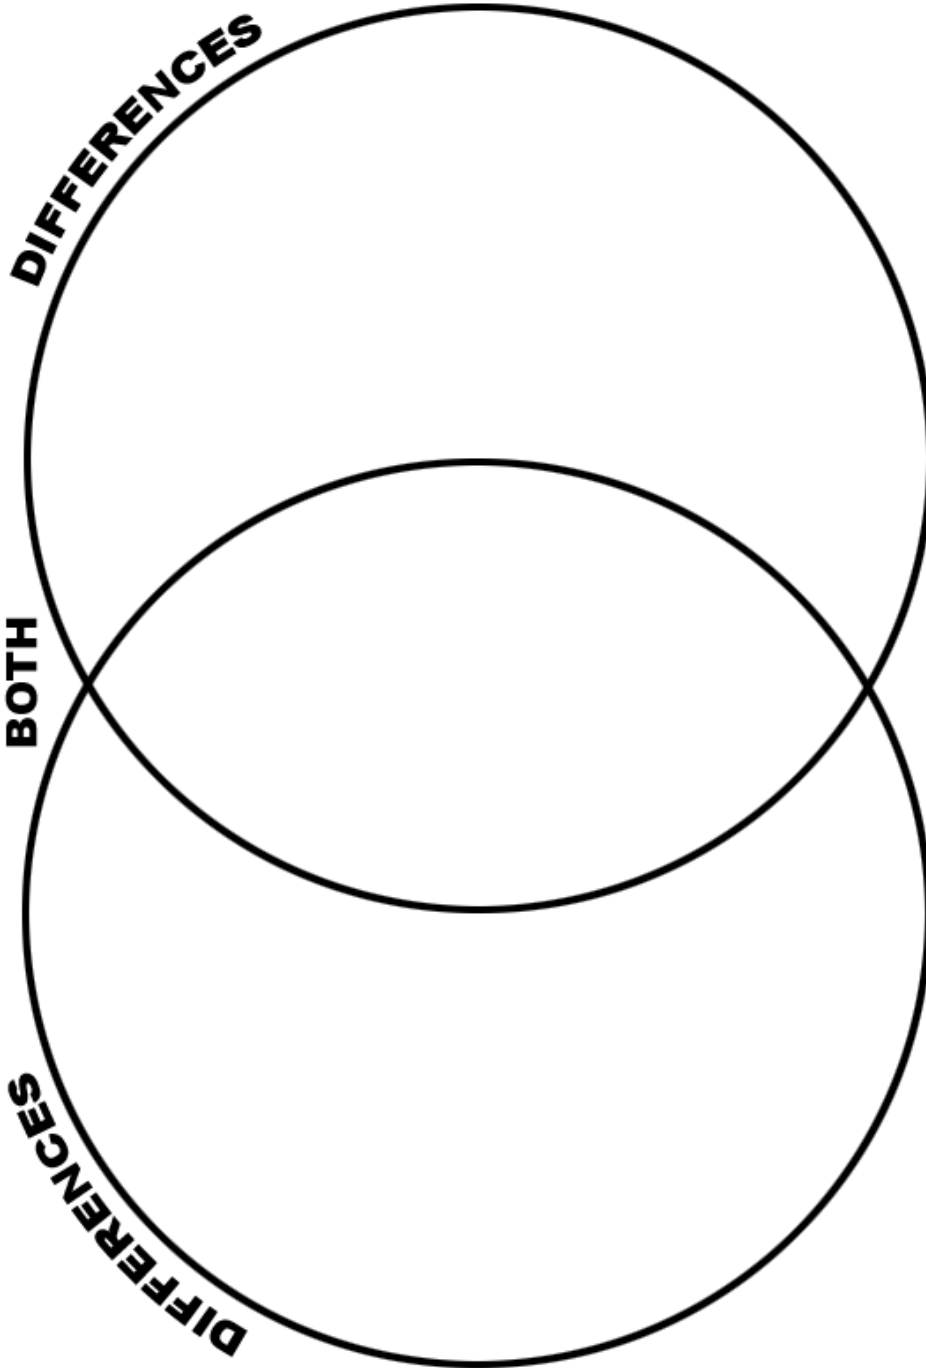

CONCLUSION: Even those rabbit and mice are alike in many ways, you should consider their differences before choosing one as a pet.

ANIMALS VENN DIAGRAM

Make your own Venn diagram.

THESIS: _____

ANIMAL: _____

ANIMAL: _____

CONCLUSION: _____
